

## **Rooms and Safety**

The groups will have their lessons in two large rooms. Room 3 is in the “old building” at 113 South Livingston Ave. The building doesn't have windows, however, I have a MERV13 filter in the HVAC unit and HEPA air purifiers in the rooms installed. Room 9 is the large piano room upstairs; small personal folding tables will be used to adhere to social distancing requirements. Air circulation and freshness has been monitored by CO2 meter. All teachers and students are required to wear masks indoors. FYI: neither teacher is currently working in a day school.
